

MIDNIGHT AT THE MASQUERADE

A MASQUERADE MURDER
MYSTERY DINNER

The rustle of silks and feathers under muted conversation was probably the last thing heard by the tragically and unexpectedly deceased at the Billionaire's Club Annual Masquerade Ball. With a mystery under each feathery façade, unmasking the killer may be quite a challenge.

Tonight's Event Supports CONCERN'S Special Needs Fund

At CONCERN, we believe that every child deserves the best chance at a bright future. That's why tonight's event is dedicated to raising funds for our **Special Needs Fund**, which directly supports children and youth in foster care. This fund helps cover extracurricular activities, trips, unmet medical expenses, and so much for children to thrive. Thank you for helping us bring hope and opportunity to children and families in our community!

CONCERN is a multi-service private non-profit 501(c)(3) human services organization dedicated to providing child welfare, juvenile justice, and behavioral health services to children and their families. Founded in 1978, CONCERN began as a pioneer of treatment foster care, believing that children placed into care should live in a traditional family setting in the community, rather than in a residential or institutional setting. Since this time, CONCERN has been at the forefront of innovative programs to meet the child's individual needs.

Areas of Service:

- **Adoption & Permanency**
- **Foster Care** is a temporary arrangement in which adults provide for the care of a child or children whose birth parent is unable to care for them. Adoption and Permanency are a more permanent arrangement.
- **Behavioral Health Service** offers professional, confidential, client-centered mental health treatment to individuals ranging in age from two to adulthood.
- **Community-Based Prevention Services** are social service programs that empower people in their own environment.
- **Residential Treatment for Boys** is a staff-secure, residential facility for adolescent males. The goal of this program is to change the mindsets and behavior patterns of the youth so that they will be able to function appropriately in society and will return to the community as healthy, productive citizens.
